

# Bring more joy to the world

Infertility is a growing problem around the globe, yet only a small percentage of people who need help having a child get access to care.

## We're calling on companies to:

- 1 Help make infertility care more accessible and affordable
- 2 Ensure your insurance offerings cover fertility care
- 3 Provide employees with the support and time they need to build families
- 4 Develop equitable family leave policies that include employees going through ALL stages of family building

It's good for business.
